TURBINE FLOWMETER

A turbine flow meter is used for volumetric total flow and/or flow rate measurement and has a relatively simple working principle. ... The angular (rotational) velocity of the turbine rotor is directly proportional to the fluid velocity flowing through the turbine.

SPECIFICATIONS :

- True wireless System
- Enables Connectivity To Cloud Server
- 'N' Nos Of Mobile Numbers Can Be Configured To Get SMS At Predefined Intervals
- 'N' Nos Of Email Id's Can Be Configured To Get Report At Predefined Intervals
- Records To Provide Real Time Data
- User Friendly Application & Interface
- Process Can Be Monitored Anytime/Anywhere Across The Globe
