

## WINDOW SIGHT GLASS

The glasses are made from Borosilicate toughend glass. The glass is non-reactive, non-contaminant with almost all types of fluids, therefore, made it universal engineering product. The sight flow indicator is used in industries for the requirement of various applications to inspect the process fluid and visual indication of the flow and media in pipes.

## SPECIFICATIONS :

SIZE	:	½" TO 16"
MATERIALS OF WETTED PART	:	CI, WCB, CF8, CF8M, MS, AND PP, HDPE, PVC, PFA, PTFE LINED
END CONNECTION	:	FLANGED TO ASA, ABS, DIN, JIS, SCREWED BSP, NPT
DESIGN	:	UP TO 200C DEPENDING
TEMPERATURE	:	UPON THE TYPE
DESIGN	:	UP TO 20 Kg/CM2
PRESSURE	:	DEPENDING UPON THE TYPE
